

Your multi-purpose structure solution, engineered and manufactured by Sprung Structures

About The Project

THE CLIENT

Bearspaw First Nation is part of the larger Stoney Nakoda Nation. Approximately 700 members live on the Eden Valley Reserve, which is situated amid the stunning foothills of the Canadian Rockies in Alberta, Canada.

bearspawfirstnation.ca/

THE ASK

When members of Bearspaw First Nation decided it was time to build a new, multi-purpose community center on the Eden Valley Reserve, they turned to Sprung for a fast and cost-effective solution. The Nation had originally erected a steel structure to serve as a community gathering place, but that structure had gone unoccupied for several years because it didn't meet certain building and engineering codes. Members wanted to replace the empty structure with a high-performing, code-compliant facility that could serve as a space for cultural events, sports and community services.

This structure will bring the community together. It will be a place for youth and young adults to gather and be active."

- Robert Shotclose Bearspaw First Nation CEO

HOW SPRUNG DELIVERED

Sprung designed and delivered a fully insulated, 100' x 150' structure to serve as Bearspaw First Nation's new community gathering space on the Eden Valley Reserve. Erected primarily by members of the Nation, the structure was built on top of the concrete foundation that had housed the reserve's original (unoccupied) community center, saving the Nation time and money.

In order to ensure the building's durability amid the high winds that frequently affect Eden Valley, Sprung's superior post-tensioning system was used for the structure's insulation and interior liner, as well as for the exterior membrane, which also features an appealing, colorful pattern based on the Bearspaw First Nations flag.

THE SPECS

100' wide x 150' long | Fully insulated

We get to walk in and share this beautiful new space together. It's just what we want to increase our community connection and help people shine."

Angela Koenig,
Family Violence Prevention Coordinator

Sprung Knows Indigenous Communities

We have a proven track record with numerous structures around the world. See Sprung in action at:

The Sprung Difference

SPRUNG CARES

Our teams work in some of the most vulnerable environments and harshest conditions. At Sprung, we are deeply committed to positively impacting the communities we serve, and applying our innovative ideas to help solve complex problems.

UNMATCHED REPUTATION

Invest in the world's most reliable, versatile and technically advanced structures; Sprung has erected 12,000 structures in more than 100 countries.

ENGINEERED FOR EXTREME CLIMATES

Sprung structures are engineered to withstand extreme weather conditions.

IMMEDIATE DELIVERY FROM INVENTORY

Complete projects in a much shorter time frame than conventional construction.

CUSTOMIZABLE

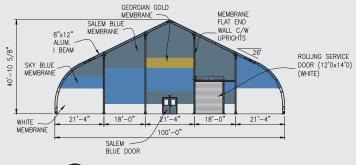

Customizations include performance insulation packages for superior indoor climate control, peak integrated daylight panels, doors and entryways for every application, and countless accessories.

LIMITED FOUNDATION REQUIREMENTS

Save on foundation costs where appropriate soil conditions exist. Concrete foundations are not required for Sprung structures up to 160 ft. in width, saving time and cost for installation.

COST-EFFECTIVE, COMPACT SHIPPING

Enjoy the convenience and cost savings of shipping up to 15,000 sq. ft. in a single, standard ISO container or flatbed truck.

About Sprung

Sprung Structures provides rapid-response buildings to a wide range of leading businesses and organizations including global armed forces, the natural resources industry, the manufacturing, commercial gaming and education sectors, disaster recovery, healthcare and aviation, as well as to the sports and recreation industry. Our patented tensioned membrane technology outperforms other building alternatives with a faster, better build.

Sprung has designed and patented tensioned membrane technology that outperforms other building alternatives and offers a faster, better build.

You can trust us to design and manufacture your facility with speed and quality that will exceed your expectations. Our clients demand it, our history proves it. In business since 1887, Sprung has completed over 12,000 structures in more than 100 countries.
